

## COLD WAVE COMING.

Farmer Dunn Predicts a Delightful Change in the Weather.

The Hot Wave Being Chased Out to Sea.

Only a Few Deaths and Prostrations Reported To-Day.

A merciful fourteen-knot breeze blowing over this city from the southwest has cooled the atmosphere perceptibly, and it is from six to eight degrees more comfortable than it was yesterday.

PENNY ICE POPULAR WITH THE BOYS.

The agriculturalist in the Government Weather Bureau on the Equitable Building says that a lovely cold wave is coming on from the West, chasing the heat out to sea. There has been a drop in temperature all through the West from 10 to 18 degrees, and Chicago awoke to 64 degrees this morning while even St. Louis, reputed to be the hottest spot in America, was enjoying 70 degrees at 6 o'clock.

New York had 75 degrees of heat at that hour, 4 degrees cooler than at the same hour yesterday, and at 10 o'clock the mercury had risen to 82, which is 8 degrees better than at that hour yesterday.

Though the air was charged with 84 per cent of humidity, and the earth seemed to steam, the effect upon suffering humanity was not nearly so serious as during the past few days, when the brisk, fresh breeze from Jersey counteracting the efforts of humidity to wilt mankind.

There were not so many cases of sunstroke, heatstroke and heat exhaustion reported, though the hospitals, dispensaries and physicians of the city have been very busy today in the treatment of cases of illness due to the continued heat.

At Chambers Street Hospital there were no less than 200 dispensary cases, which is 100 more than the average at that institution. Many mothers carried mourning babies, they suffered from summer complaints, prickly heat, fevers and the like, brought on by the terrific heat of the past three days, and there will be great mortality among the little children for days to come as the result of this hot wave's visit to the city.

A RESpite OF TWO DAYS.

Prophet Dunn says that we shall continue to grow cooler for the next two days, that we shall have fair weather, followed by welcome showers, today, and that it should be much cooler to-morrow. To-morrow there should be showers in the morning, and fair weather, cooler still, in the afternoon, and the day after.

WATCHING THE THERMOMETER.

The cool wave is coming down from Montana, Manitoba and Alaska, where the temperature is only six to sixteen degrees above freezing. It has already reached all the cities south of the Atlantic and the Gulf coasts, even on the suburban streets it is cooler. Even on the suburban streets it is cooler. Even on the suburban streets it is cooler. Even on the suburban streets it is cooler.

## IT'S QUEER CASE NO. 10.

Rowe Shot Himself for Love and Charged His Friend with the Act.

Dragged Dying Across Country by a Coroner and Lodged in Jail.

There was slight hope this morning for the recovery of Frank Rowe, of 235 West Twenty-fourth street, who is lying at the White Plains jail with a bullet in his head. Efforts to extract the bullet have proved unsuccessful.

It is now pretty well settled in the minds of those familiar with the facts that Rowe shot himself in a fit of jealousy on account of his sweetheart, pretty Rose McGirt, and that he wrongfully accused his friend, Oscar Davis, of shooting him accidentally.

Rowe is an employee of Simpson, Crawford & Simpson. He was formerly employed at 235 West Twenty-fourth street, where he became acquainted with and fell in love with Miss Rose, who managed the suit department.

Rowe was on his vacation. Last Sunday he took Miss Rose on an excursion to Newburg. They had a quarrel, it is said, because Miss McGirt refused to go with him to Newburg.

Monday morning Rowe started for Goat Island to join Davis, who is known as "the Indian," and Harry Marcellus, a Philadelphia electrician, who were camping out there.

Rowe was found lying at the corner of Myrtle avenue and Prince street, Brooklyn, this morning, overcome by the heat. He was taken to the Adams street police station, where he died at 853 Elmworth street, Philadelphia.

Rowe was a laborer at the Flatbush Hospital and who lived on Pacific street, Brooklyn. He was found lying at the corner of Myrtle avenue and Prince street, Brooklyn, this morning, overcome by the heat. He was taken to the Adams street police station, where he died at 853 Elmworth street, Philadelphia.
